Chapter scores

Chapter	Score
Ch.2 – Principles	40%
Ch.3 – Rights of data subjects	23%
Ch.4 – Controller & processor	11%
Ch.5 – Transfers to third countries	29%
Ch.8 – Remedies, liability & penalties	52%
Ch.9 – Specific processing situations	0%

Top urgent gaps

- Art. 5 (Principles relating to processing): lawfulness, fairness and transparency
- Art. 6 (Lawfulness of processing): No lawful basis is stated for the collection and processing of personal data.
- Art. 7 (Conditions for consent): The policy does not explicitly state that consent must be 'freely given' and that the performance of a contract cannot be conditional on consent to processing not necessary for that contract.

Appendix — finding detail

Art. 5 — Principles relating to processing

Priority: p2 Chapter: Ch.2 – Principles

Severity: warning Status: partial

Score: 28/100

Risk: medium

Gaps

- lawfulness, fairness and transparency
- accuracy
- storage limitation
- accountability

Evidence

- By and large, it's information about you that can personally identify you — either on its own or when combined with other information.
- When you sign up for a Times Service (e.g., a subscription) , we collect your contact information and account credentials.
- For some Times Services, you can instead sign up by linking your Apple, Facebook or Google account.
- Anyone can read, collect and use any personal information that accompanies your posts.
- If the law requires us to take down, remove or edit your personal information, we will comply to the required extent.
- We gather information through questionnaires, surveys and feedback programs.
- We also conduct similar research for advertisers.
- We ask you for your consent to use this information when you participate in these programs and events.

Notes

The policy touches upon several of the principles of GDPR Article 5, including purpose limitation (collecting data for specified purposes), data minimisation (collecting information based on context and necessity), and transparency (explaining data collection and usage). However, there is no explicit mention of lawfulness, fairness, accuracy, storage limitation, or accountability. For example, it is not clear how the company ensures data accuracy or has policies for data deletion/retention (storage limitation). The policy also does not detail how the company demonstrates accountability for data processing.

Art. 6 — Lawfulness of processing

Priority: p2 Chapter: Ch.2 – Principles

Severity: warning Status: partial

Score: 52/100

Risk: critical

Gaps

- No lawful basis is stated for the collection and processing of personal data.

Notes

The policy does not explicitly state the lawful basis for processing personal data as required by GDPR Article 6. Therefore, it is not possible to determine if the processing activities described are lawful. For example, when users sign up for a Times Service, their contact information and account credentials are collected, but the basis for this processing is not mentioned.

Art. 7 — Conditions for consent

Priority: p2 Chapter: Ch.2 – Principles

Severity: warning Status: partial

Score: 36/100

Risk: medium

Gaps

- The policy does not explicitly state that consent must be 'freely given' and that the performance of a contract cannot be conditional on consent to processing not necessary for that contract.

- The policy does not explicitly state that consent must be 'unambiguous'.
- The policy does not explicitly state that consent must be 'informed' prior to giving consent.

Evidence

- In your request, please be specific.
- If you'd like, you can lodge a complaint with a data protection authority.
- you can decline to answer.

Notes

The policy mentions options to opt-out of marketing communications, which relates to withdrawing consent. It also discusses specificity in requests regarding personal information. However, it does not explicitly detail the requirements for consent to be 'freely given', 'specific', 'informed', or 'unambiguous' as per GDPR Article 7. The policy implies that some actions might be conditional on providing information (e.g., completing a purchase), but it's unclear if this relates to consent for processing data not necessary for the transaction itself.

Art. 8 — Child's consent

Priority: p3 Chapter: Ch.2 – Principles

Severity: warning Status: present (unverified)

Score: 70/100

Notes

The policy states that services are not directed at children under 13 and that they do not knowingly gather personal information in a manner not permitted by COPPA. It also provides a contact for parents to report potential violations and states that data will be removed if required by law.

Art. 9 — Special category data

Priority: p2 Chapter: Ch.2 – Principles

Severity: warning Status: partial

Score: 52/100

Risk: medium

Gaps

- Policy does not specify how explicit consent or Art.9(2) derogation is obtained or verified for sensitive data, only that sensitive data is generally not wanted and may be declined in surveys.

Evidence

- This includes:

Notes

The policy states that sensitive information is generally not wanted and users can decline to answer in rare situations like surveys. However, it does not detail the process for obtaining explicit consent or verifying Art.9(2) derogations when such data is processed. This creates a gap in compliance regarding the lawful processing of special category data as defined by GDPR Article 9.

Art. 11 — Processing without identification

Priority: p2 Chapter: Ch.2 – Principles

Severity: warning Status: partial

Score: 44/100

Risk: low

Gaps

- The policy does not specify if or how data subjects are informed when their identification is not required and not possible.
- The policy does not mention specific provisions for Article 15-20 rights when identification is not possible.

Notes

The policy mentions assigning a unique ID number once registered and collecting personal information. However, it does not explicitly state whether processing occurs without identification, or if data subjects are informed when their identification is not possible or required for processing purposes, as per Article 11.

```

Art. 12 — Transparency & modalities

Priority: p2 Chapter: Ch.3 – Rights of data subjects

Severity: warning Status: partial

Score: 28/100

Risk: medium

Gaps

- The policy does not specify a timeframe for responding to data subject requests.
- The policy does not mention providing responses free of charge.
- The policy does not mention providing responses in oral form upon request.
- The policy does not mention providing responses using standardized icons.

Evidence

- The information we gather about you depends on the context.
- We offer you the ability to post content that other users can read

Notes

The policy mentions that information is gathered based on context and user interaction, and that users can link or disconnect third-party accounts. However, it does not explicitly state the commitment to provide responses to data subject requests within a month, nor does it mention providing information free of charge or in alternative formats like oral communication or standardized icons. The policy also does not address the process for handling manifestly unfounded or excessive requests.

Art. 13 — Info collected from data subject

Priority: p2 Chapter: Ch.3 – Rights of data subjects

Severity: warning Status: partial

Score: 10/100

Risk: medium

Gaps

- The policy does not mention the identity and contact details of the controller.
- The policy does not mention the contact details of the Data Protection Officer (DPO), if applicable.
- The policy does not explicitly state the legal basis for all processing activities.
- The policy does not provide information on the legitimate interests pursued by the controller or a third party where processing is based on legitimate interests.
- The policy does not clearly outline the recipients or categories of recipients of the personal data.
- The policy does not specify whether the controller intends to transfer personal data to a third country or international organisation and the existence/absence of an adequacy decision or safeguards.
- The policy does not mention the period for which personal data will be stored, or the criteria used to determine that period.
- The policy does not explicitly detail the existence of rights such as the right to data portability.

Evidence

- The information we gather about you depends on the context.

Notes

The policy provides some information about data collection and usage, but lacks details required by GDPR Article 13 regarding controller identification, DPO contact, explicit legal basis for all processing, retention periods, recipients, data transfer information, data subject rights, and automated decision-making. Specific mention of consent withdrawal rights and the right to lodge a complaint with a supervisory authority is also missing. The policy mentions 'service provider' but does not provide details about them as recipients. The policy mentions 'consent' in relation to some data collection activities, but does not detail the right to withdraw consent.

Art. 14 — Info not obtained from data subject

Priority: p2 Chapter: Ch.3 – Rights of data subjects

Severity: warning Status: partial

Score: 10/100

Risk: high

Gaps

- The company policy does not specify the identity and contact details of the controller, nor the contact details of the Data Protection Officer (DPO), if applicable.
- The company policy does not explicitly state the purposes of processing for which personal data are intended or the legal basis for the processing, other than implied consent for specific programs.
- The company policy does not detail the categories of recipients or categories of recipients of the personal data.
- The company policy does not mention the controller's intent to transfer personal data to recipients in third countries or international organizations, nor the existence of adequacy decisions or safeguards.
- The company policy does not specify the period for which personal data will be stored, or the criteria used to determine that period.
- The company policy does not explicitly mention the legitimate interests pursued by the controller or a third party, where applicable.
- The company policy does not clearly outline the existence of automated decision-making, including profiling, and meaningful information about the logic involved, its significance, and envisaged consequences.
- The company policy does not state from which source the personal data originate when not obtained directly from the data subject, and if applicable, whether it came from publicly accessible sources.

Notes

The policy mentions obtaining data from third-party sources like 'Marketing, data analytic and social media-owned databases' and through linking social media accounts. However, it lacks specific information required under Article 14(1) and 14(2), such as controller details, DPO contact, explicit purposes and legal basis, categories of recipients, data retention periods, and details on automated decision-making/profiling. The policy does mention that data can come from 'public data' and 'survey data', hinting at Article 14(2)(f), but doesn't clearly state the origin of all data not obtained directly from the subject.

Risk: high

Gaps

- The policy does not describe the process for submitting a Subject Access Request (SAR).
- The policy does not specify the timeframe for responding to SARs.
- The policy does not detail the identity verification process for SARs.
- The policy does not explicitly state what information will be provided as part of an SAR response.

Notes

The policy does not describe the process for submitting a Subject Access Request (SAR), the response timeline, identity verification, or the specific information provided to the data subject. This leaves significant gaps in compliance with Article 15.

Art. 16 — Right to rectification

Priority: p2 Chapter: Ch.3 – Rights of data subjects

Severity: warning Status: partial

Score: 52/100

Risk: medium

Gaps

- The policy does not specify that rectification requests must be handled 'without undue delay'.

Notes

The policy describes the right to change, delete, update, or exercise other rights in relation to personal information. It also mentions responding to requests in a manner consistent with applicable law and completing opt-out requests as quickly as possible. However, it does not explicitly state that rectification requests must be

handled 'without undue delay', which is a key requirement of GDPR Article 16.

Art. 17 — Right to erasure

Priority: p2 **Chapter:** Ch.3 – Rights of data subjects

Severity: warning **Status:** partial

Score: 36/100

Risk: medium

Gaps

- The policy does not explicitly state the grounds for refusing a deletion request.
- The policy does not describe the process for handling deletion requests where the personal data has been made public.
- The policy does not specify exceptions for retention of personal data beyond a deletion request, other than for legal claims.

Notes

The policy describes how to request suppression of information and mentions retention for recordkeeping or transaction completion. However, it does not detail the specific grounds for refusal of a deletion request, nor does it cover the process for public data or other exceptions to erasure beyond legal claims and transaction completion.

Art. 18 — Right to restriction

Priority: p2 **Chapter:** Ch.3 – Rights of data subjects

Severity: warning **Status:** partial

Score: 52/100

Risk: medium

Gaps

- The policy does not explicitly mention the right to restrict processing in cases where the accuracy of personal data is contested, or when processing is unlawful and erasure is opposed.

Notes

The policy mentions limitations that users can request on how their personal information is used, which can be interpreted as a form of restriction of processing. However, it does not explicitly cover all the conditions outlined in Article 18, such as restriction due to contested accuracy or unlawful processing where erasure is opposed. It also doesn't specify that the data would be marked for restriction.

Art. 21 — Right to object

Priority: p2 Chapter: Ch.3 – Rights of data subjects

Severity: critical Status: fail

Score: 0/100

Risk: high

Gaps

- The policy does not explicitly state that individuals have the right to object to the processing of their personal data for direct marketing purposes, nor does it mention that this right includes profiling related to direct marketing.
- The policy does not specify that the right to object must be brought to the attention of the data subject clearly and separately at the time of the first communication, or that it can be exercised through automated means.
- The policy does not describe how individuals can exercise their right to object to direct marketing or profiling.

Notes

The policy does not address the right to object to direct marketing and profiling, which is a requirement under GDPR Article 21. There is no information on how users can opt-out of direct marketing or profiling activities.

Art. 22 — Automated decision-making

Priority: p2 Chapter: Ch.3 – Rights of data subjects

Severity: warning Status: partial

Score: 36/100

Risk: critical

Gaps

- The policy does not explicitly state the right not to be subject to automated decision-making, including profiling, that produces significant legal or similar effects.
- The policy does not mention whether decisions are necessary for contract performance, authorized by law with safeguards, or based on explicit consent.
- The policy does not detail provisions for human intervention, the right to express a point of view, or the right to contest automated decisions when they are based on contract or consent.

Notes

The policy lacks information regarding automated decision-making processes and the rights of data subjects concerning such decisions. There is no mention of Article 22 rights such as the right not to be subject to automated decision-making, the exceptions to this right (contract, legal authorization, consent), or the safeguards required (human intervention, right to contest) when these exceptions apply. Therefore, compliance with GDPR Article 22 cannot be confirmed.

Art. 24 — Responsibility of the controller

Priority: p2 Chapter: Ch.4 – Controller & processor

Severity: warning Status: partial

Score: 28/100

Risk: medium

Gaps

- The policy does not explicitly state that the controller shall implement appropriate technical and organisational measures to ensure and demonstrate compliance with GDPR.
- The policy does not mention reviewing and updating these measures where necessary.
- There is no mention of implementing data protection policies as part of the controller's obligations, as required by Article 24(2) when proportionate.
- The policy does not reference adherence to approved codes of conduct or certification mechanisms as a means to demonstrate compliance.

Notes

The policy outlines various data collection and processing activities but lacks explicit statements regarding the controller's responsibility to implement and demonstrate compliance with GDPR through specific technical and organisational measures, policy implementation, and adherence to codes of conduct or certifications. While some practices like consent for data collection and user control over information might indirectly support compliance, the direct obligations under Article 24 are not clearly articulated or evidenced.

Gaps

- The policy does not specify the need for a Data Processing Agreement (DPA) that includes clauses on sub-processor lists, audit rights, data deletion/return obligations, and processing based on written instructions. (Article 28(2), 28(3), 28(4), 28(9))

Notes

The provided policy text does not contain any information regarding Data Processing Agreements (DPAs) or specific contractual clauses required by Article 28 of the GDPR. Therefore, it is impossible to verify the presence of sub-processor lists, audit rights, deletion/return obligations, or processing based on written instructions. Art. 44 — General principle for transfers

Priority: p2 Chapter: Ch.5 – Transfers to third countries
 Severity: warning Status: partial
 Score: 44/100
 Risk: high
 Gaps

- The policy does not explicitly state that all international transfers of personal data comply with Chapter V mechanisms (e.g., adequacy decisions, standard contractual clauses, binding corporate rules).
- The policy does not detail the specific mechanisms used for international data transfers, which is a requirement under Chapter V of the GDPR.

Notes

The policy mentions sharing data with 'outside companies, agents or contractors ('service providers')' and working with 'third parties' for analytics, advertising, and marketing. However, it does not specify the geographic location of these providers or the legal mechanisms in place to ensure compliance with Chapter V of the GDPR for international data transfers. Without this information, it is not possible to confirm compliance with Article 44.

Art. 45 — Adequacy decision transfers

Priority: p2 Chapter: Ch.5 – Transfers to third countries

Severity: critical Status: fail

Score: 0/100

Risk: critical

Gaps

- The policy does not mention any third countries, territories, or international organizations to which personal data may be transferred.
- The policy does not describe any mechanisms or safeguards in place for international data transfers, such as adequacy decisions or other Chapter V mechanisms.
- There is no mention of how the company ensures an adequate level of protection for personal data when transferred outside of the EEA.

Notes

The provided policy text does not contain any information regarding international data transfers or adequacy decisions, which are the subject of Article 45. Therefore, compliance cannot be verified.

Art. 77 — Right to lodge a complaint

Priority: p2 Chapter: Ch.8 – Remedies, liability & penalties
Severity: warning Status: partial
Score: 52/100
Risk: low
Gaps

- The policy does not specify how to lodge a complaint with a supervisory authority, nor does it provide contact details or a link to a list of EU data protection authorities.

Notes

The policy mentions the right to lodge a complaint with a data protection authority and states that a list of EU data protection authorities is available, but it does not provide instructions on how to do so or provide the list itself. Therefore, it is only partially compliant.

Art. 88 — Employment context

Priority: p2 Chapter: Ch.9 – Specific processing situations

Severity: critical Status: fail

Score: 0/100

Risk: critical

Gaps

- The policy does not cover specific rules for processing employee personal data in the employment context, including recruitment, performance of the contract, management, equality and diversity, health and safety, protection of employer's property, and termination.
- The policy does not mention specific measures to safeguard employee data subjects' human dignity, legitimate interests, and fundamental rights, particularly regarding transparency of processing, data transfers within a group, or workplace monitoring systems.

Notes

The provided policy text does not contain any information related to the employment context for data processing as described in GDPR Article 88. Therefore, it is not possible to verify compliance with this article based on the given policy.
