or pipeline halted)

Applies: yes
HIL required: True
Reason bullets in JSON: 4

P3 — Topic presence

P4 — Conditional scenarios

No P3 findings

No P4 in-scope
articles to chart

Color key — green: good/pass · grey: neutral/unknown · orange: gap/partial concern · red: fail / P4 triggered

Scope assessment (P1)

Applies: **yes**

HIL required at scope: **True**

Scope reasons

- The policy concerns the collection, protection, and use of personally identifiable information ('Personal Information') from users of a website and its services.
- While the text mentions exemptions for companies not owned or controlled and individuals not employed or managed, it does not explicitly claim any exemptions under GDPR Art. 2.

- The policy describes data processing activities that appear to fall under the material scope of GDPR Art. 2, which applies to the processing of personal data.
- The policy's territorial scope is not explicitly detailed, but the reference to a website suggests potential applicability if users are in the Union, as per GDPR Art. 3.

Executive summary

Overall compliance score (P2-only index): 0% — *not based on article checks; workflow halted at scope / P1 gate before mapping and P2 scoring.*
